Administration Steps

- 1 Peel** back the package to remove the device. Hold the device with your thumb on the bottom of the plunger and 2 fingers on the nozzle.
- 2 Place** and hold the tip of the nozzle in either nostril until your fingers touch the bottom of the patient's nose.
- 3 Press** the plunger firmly to release the dose into the patient's nose.

When administering NARCAN® Nasal Spray, be sure to call 911 right away, even if the person wakes up. Watch them closely. If breathing does not return to normal, or if breathing difficulty resumes after 2-3 minutes, give an additional dose of NARCAN® Nasal Spray using a new device in the other nostril.
